TRISTAN **MYERS**

Florida

tristan@tristanmyers.dev · **LinkedIn Profile** · **GitHub**

OBJECTIVE: To be a versatile developer/engineer, who brings value to the team and company.

EXPERIENCE

OCT 2022 – JAN 2023

CONTRACT FULL STACK WEB DEVELOPER, ANNEX DISTRIBUTION, **REMOTE**

- Converted an existing project to a TypeScript codebase to create a more reliable environment for our developers.
- Incorporated a refreshed design for a necessary page and added improvements to multiple pages to elevate user experience.
- Utilized core technologies, such as TypeScript, React, Next.js, and AWS DynamoDB to implement front end and back-end features.

JAN 2022 – OCT 2022

CONTRACT FRONT END WEB DEVELOPER, MY FAVORITE QUILT STORE, **REMOTE**

- Implemented a new site design, using a custom Shopify template made with React, Typescript and Tailwind.
- Addressed issues and elevated user experience by resolving bugs and streamlining interactions.
- Leveraged Playwright, Jest, and Google Analytics to develop unit tests, end-to-end tests, and A/B tests, ensuring optimal site functionality and adherence to specifications.

EDUCATION

AUGUST 2023-PRESENT

A.A FIRST YEAR, ST. JOHNS RIVER STATE COLLEGE

SKILLS

- **Web front end**: Javascript, Typescript, HTML/CSS, Tailwind, and frameworks such as React.
- **Web back end/server**: Node, Deno, Next, relational, and non-relational databases.
- Other languages such as Python, Rust, and C
- Other technologies include Shopify, setting up analytics for websites, and testing libraries.

- Great with a team
- Versatile in technologies
- Well organized
- A strong problem-solver.
- Quick to learn new things and dig deeper into existing things.
